

SUSTAINABLE MINING 2020 SUMMIT

Hotel Mayfair Lagoon, Bhubaneswar (Odisha)
23-24 April, 2020

SUSTAINABLE MINING
INITIATIVE

FIMI PROGRAMMES AND
TRAINING PVT. LTD.

FEDERATION OF INDIAN MINERAL INDUSTRIES

FIMI House, B-311, Okhla Industrial Area, Phase-I, New Delhi-110020 (India)

Tel. : 91-11-26814596; Fax : 91-11-26814593/26814594

E-mail : fimi@fedmin.com; Website: www.fedmin.com

Location

The Summit is being held in the city of Bhubaneswar - Temple Metropolis of India. The temples epitomize a comprehensive history of the Odisha style of temple architecture spreading almost to two thousand years from 3rd century BC to 16th century AD. The 46 metre high Lingaraj Temple marks the culmination of temple tradition of Bhubaneswar. The new Bhubaneswar with its modern buildings and extensive infrastructure perfectly complements its historic surroundings. With facilities to cater to every type of visitor, Bhubaneswar makes an ideal tourist destination. The venue will be Hotel Mayfair Lagoon, ideally located at a distance of 3 km from the airport and 1.5 km from Railway Station and offers visitors an unique experience.

Background

Minerals are vital inputs in our daily life as well as necessary for India's growth. Rapid growth in population and need to improve living standards has led to huge demand for mineral resources. On the other hand, there are huge expectations that mining be done sustainably while addressing the complexities of socio-economic development, benefit-sharing with stakeholders, mitigating climate change and impacts on the environment.

It is crucial to adopt global best practices and latest technology while operating the mines to achieve higher productivity, operational excellence and high health and safety standards. Further, it is also necessary to highlight the role of mining sector in sustainable development of the country and build trust and transparency in the sector.

Indian mining sector has now entered a critical transition phase after series of greenfield and brownfield mine auctions, judicial pronouncements and policy reforms. The present mining ecosystem in India is quite volatile and thus it is essential for all stakeholders, including policymakers and industry to adopt global best practices and collaborate for long-term sustainability in the mining sector. Much work needs to be done to facilitate mining business, create new job opportunities, holistic development of communities and ensure overall sustainability of mining operations.

In this background, FIMI is organizing the Sustainable Mining Summit 2020 at Hotel Mayfair Lagoon, Bhubaneswar on 23-24 April, 2020. The Summit aims to deliberate on various

mining issues concerning sustainability, which will result in a road-map for sustainable mining in India. Various stakeholders, including Government agencies, regulators, industry stalwarts, practicing managers, NGOs, academicians and strategists are expected to come together on this platform to deliberate on these very important issues at a turning point in the Indian Mining History.

Summit Themes

Mining: Global and Regulatory Scenario

- Update on global mining scenario
- Future of Mining in a sustainable world
- Indian Mining Sector: Ease of Doing Mining and Social License to Operate
- Policy Reforms in Mining, Environment, Forest and Land Acquisition

Sustainability of mining activities in India

- Auction – Impact on mine sustainability and issues
- Operational excellence and competitiveness of Indian Mining Industry
- Environmental stewardship, health and safety in mines
- Capacity-building and utilization of DMF for sustainability

Responsible Mining: Best practices

- Application of sustainable mining principles and innovative practices in exploration & mining, mineral conservation, resource efficiency, mitigating climate change, R&R of mined out areas
- Case studies in CSR and community engagement in mining sector
- Leveraging Technology for Improved Sustainability – Mine Planning, Drones for Mine Monitoring and Survey, application of A.I., Slope Stability, GIS and Environmental Mapping, Equipment and Process Monitoring
- Skill development to sustain growth and improve mine safety

Sustainability & its impact on Mine of the Future

- Creating and sustaining an ecosystem for SDF
- Star Rating and Sustainable Development Goals
- Addressing environmental and social license complexities
- Improving awareness on sustainable mining
- Sustainability reporting and tracking
- Evolving technological developments, waste management and mine closure expectations

Who Should Attend

Speakers from government (Central & State), regulatory agencies, academic and research institutions and industry will be sharing their views. A few international speakers and participants are also expected to attend. Government and industry leaders are also expected to be present. The Summit will provide excellent opportunities for sharing of views and experiences as well as interactions and networking. Industry leaders, regulators, senior managements, decision makers, mining, exploration, environment, CSR professionals, civil society organizations, consultants, occupational health and safety experts, academia and researchers at various levels will find the Summit immensely valuable and thought - provoking.
